C,Python,HTML,CSS,
Javascript.

FRAMEWORKS/LIBRARIES:

Node,Pandas,Seaborn,Matplotlib,
Bootstrap,Numpy,ML Algorithms,
Express.

DEVELOPMENT:

MEAN Stack

DATABASES:

MySQL,MongoDB

COURSE WORK

Data Structures
Object Oriented Programming
Operating Systems
Database Management System

EXPERIENCE

Network Engineer Intern,BSNL Trichy

07/2023-08/2023

- Assisted in configuring routers, diagnosing connectivity issues, and optimizing network performance.
- Acquired hands-on experience in managing telecommunications infrastructure and contributing to seamless communication services.
- Collaborating on real-world projects, I honed my skills in troubleshooting and implementing solutions to ensure seamless communication services.

PROJECTS

Student Performance Analysis

08/2023-09/2023

- Its data-driven approach offers insights into student achievement, identifies areas for improvement and aids education in making data-informed decisions to enhance learning outcomes and educational strategies.
- Student Performance Analysis in education employs Python for data analysis, using tools like Pandas and visualization libraries

E-Commerce Website for Automobile workshop

03/2023-06/2023

- The E-commerce website for an automobile workshop, developed using the MEAN stack offers a comprehensive platform for customers to interact with and access services from the workshop.
